About the Speakers

Dr. Daniel O. Taube

Daniel O. Taube earned his J.D. from Villanova University in 1985 and his Ph.D. in clinical psychology from Hahnemann University in 1987, as a member of the Hahnemann/Villanova Joint Psychology and Law Graduate Program. He is Professor Emeritus at the California School of Professional Psychology, San Francisco at Alliant International University, past Psy.D. Program Director, founder and coordinator of the Forensic Family Child.

His areas of professional focus include ethical and legal issues in professional practice, child protection, and addictions. In addition to his teaching and research interests, he has been in private practice since 1990, has served on the APA Ethics Appeals Panel for over 20 years, and taught graduate and professional level courses on ethical and legal issues in professional practice for over 25 years. Dr. Taube regularly consults with a wide range of practitioners and community agencies regarding standards of practice and ethical concerns.

Sequence X: Perplexing Problems in Psychological Practice: Decision Science, Ethics & Risk Management

Objectives:

- *Describe basic principles of risk management, as applied to several specific clinical situations that frequently arise in professional practice.*
- *Identify core heuristics and biasing processes that can interfere with appropriate risk management and ethical decision-making.*
- *List three strategies to ameliorate decision-making challenges.*
- *Describe preliminary considerations prior to engaging in interjurisdictional practice.*
- *Evaluate potential issues and preventive responses to supervisory risks.*
- *Identify three methods for reducing privacy risks when using technology in clinical practice and responding appropriately to breaches if they occur.*
- *Name three strategies for handling subpoenas and deposition demands.*

About the Speakers

Dr. Rosalie Ball

Rosalie Ball, Ph.D. has been a clinical psychologist at the Sioux Falls VA Health Care System (HCS) since 2015. She completed her internship with the Ft. Meade VA Health Care System. She provides individual and couples psychotherapy to an adult veteran population at the Community Based Outpatient Clinic in Aberdeen. She has served as the military sexual trauma coordinator and Mental Health Representative of the Women Veteran's Advisory Committee at the Sioux Falls VA HCS. She has been involved in SDPA as a student representative (2013-2014) while a graduate student at the University of South Dakota and as the president (2019-2020). Currently, she is serving a three year term as a board member of the South Dakota Board of Examiners of Psychologists.

Emotion Efficacy Therapy (EET)

- *Emotion efficacy is defined as how effectively a person can experience and respond to a full range of emotions in a contextually adaptive, values-consistent manner.*
- *Low emotion efficacy is likely the result of key vulnerabilities or patterns of maladaptive behavioral responses-behaviors enacted in response to emotional pain, or the desire to avoid pain, which fuel and maintain psychopathological processes.*
- *EET is a brief protocol combining the psychological flexibility of Acceptance and Commitment Therapy (ACT), the dialectics of Dialectical Behavioral Therapy (DBT), and the experiential learning of exposure therapy.*
- *An eight-week transdiagnostic protocol to help clients develop*
 - *Emotion Awareness*
 - *Mindful Acceptance*
 - *Mindful Coping*
 - *Values Based Action*
 - *Exposure-Based Skills Practice*
